Subject: Voters Trust Democrats Over Republicans on Issue of Healthcare, COVID-19; Overwhelming Support for Key Provisions in American Rescue Plan

Date: March 2, 2021

A new national Public Policy Polling survey finds that a majority of voters trust Democrats over the Republican Party on the issue of healthcare and to respond to the COVID-19 pandemic. When it comes to the issue of healthcare, voters trust Democrats by a margin of 14 points (51-37), and a margin of 17 points (53-36) to handle the pandemic.

This survey finds overwhelming support for key elements of the American Rescue Plan Act, currently being debated in Congress. Several provisions of the Act are targeted at improving access to healthcare, and are widely popular among voters:

- 77% of voters support the American Rescue Plan's provision to lower healthcare costs for people who lost their healthcare coverage when they lost their job during the pandemic. Just 14% oppose this. Support includes 56% among Trump voters and 58% among Republicans.
- 74% support the plan's \$1,400 relief checks for middle income and working families who need it the most, with just 18% opposed. Support includes 52% of Trump voters and 61% among Republicans.
- 72% support the provision to cap insurance premiums for millions of Americans so none pay more than 9% of their income to get the health insurance they need. Only 11% oppose this.
- 71% support the provision including new funding to surge vaccine distribution and COVID testing, while only 19% oppose it. Support includes 51% of Republicans and 72% among people over 65.

In fact, the American Rescue Plan is so popular, a majority (55%) of Americans say they would rather have it than a puppy (23%).

A plurality (45%) of voters also say that if their members of Congress were to vote against the American Rescue Plan, they would be less likely to vote for them in the next election including 21% of Republicans being less likely to support re-election for their Member of Congress. Just 22% of voters say they would be more likely to vote for their members of Congress if they voted against the Plan.

Public Policy Polling surveyed 756 national voters on behalf of Protect Our Care from February 25-26, 2021. The margin of error is +/- 3.6%. 50% of interviews for the survey were conducted by telephone and 50% by text message.
